

I would like to comment on the an FM station K-LOVE. K-LOVE is important to me as a parent and christian. It gives my children alternative music to listen to instead of secular rock music. It encourages us to be positive to the people around us. Because we live in a sparsely populated area we would not be able to support a local radio station, but by cooperating with a larger station like K-LOVE we can have music and programing that appeals to us. K-LOVE also has support and ministry aspect we could not duplicate on a smaller scale. Please do not change the FM translator system, we would be without Christian radio in our area.
